CONTENTS

SECTION B—VOL. LXIII

PAGE

No. 1—January 1966

The New Physiology of Vision. Chapter XXX. The Photo-Mechanical Reproduction of Colour . . . . . Sir C. V. Raman 1

The New Physiology of Vision. Chapter XXXI. The Integration of Colour by the Retina . . . . . Sir C. V. Raman 5

Trace Element Nutrition of the Silkworm *Bombyx mori* L. I. Effect of Trace Elements . . . . . S. Sridhara and J. V. Bhat 9

Trace Element Nutrition of the Silkworm *Bombyx mori* L. II. Relationship between Cobalt, Vitamin B_{12}, Benzimidazole and Purines . . . . . S. Sridhara and J. V. Bhat 17

Physiological Studies on *Marphysa gravelyi* Southern. I. Salinity Tolerance . . . . . B. Krishnamoorthi and S. Krishnaswamy 26

Cytology of Pollen with Particular Reference to *Impatiens* and *Allieae* . . . . . T. N. Khoshoo 35

No. 2—February 1966

The New Physiology of Vision. Chapter XXXII. Defects in Colour Vision . . . . . Sir C. V. Raman 47

The New Physiology of Vision. Chapter XXXIII. The Testing of Colour-Vision . . . . . Sir C. V. Raman 53

Responses of Rotifera to Variations in Some Ecological Factors . H. C. Arora 57

Three Undescribed Genera and Species of Encyrtidae (Hymenoptera-Chalcidoidea) Parasitic on Coccids . . . . . Man Mohan Agarwal 67

Experiments on Large-Scale Production of Fish Seed of the Chinese Grass Carp, *Ctenopharyngodon idellus* (C. and V.) and the Silver Carp, *Hypophthalmichthys molitrix* (C. and V.) by Induced Breeding in Ponds in India . . . . H. Chaudhuri, S. B. Singh and K. K. Sukumaran 80

Preliminary Studies on the Bottom Macrofauna of the Tungabhadra Reservoir . . . . . K. N. Krishnamurthy 96

PAGE

No. 3—March 1966

The New Physiology of Vision. Chapter XXXIV. The Nature and Origin of Defects in Colour-Vision . . . . . Sir C. V. Raman 105

The New Physiology of Vision. Chapter XXXV. The Faintest Observable Spectrum . . . . . Sir C. V. Raman 110

Physiological Studies on *Marphysa gravelyi* Southern. II. Volume Regulation . . . . . B. Krishnamoorthi and S. Krishnaswamy 117

Studies on the Formation of Leaf Tumours in an Interspecific *Triticum* Hybrid . . . . . T. Srinivas 126

Morphology and Histology of the Male Reproductive Organs of *Utetheisa pulchella* L. (Lepidoptera: Arctiidae) . . . . . L. M. L. Mathur 133

Photo-Function of Transplanted Rice . . . . . R. Venkataraman 145

Biosystematics of Indian Plants. II. The Problem of *Centaurium pulchellum* Complex . . . . . T. N. Khoshoo and C. L. Khushu 152

Determination of Mitotic Peak Time in *Stigeoclonium amoenum* Kütz. . . . . A. Abbas and M. B. E. Godward 161

No. 4—April 1966

The New Physiology of Vision. Chapter XXXVI. The Postulated Duality of the Retina . . . . . Sir C. V. Raman 165

The New Physiology of Vision. Chapter XXXVII. The Spectrum of the Night-Sky . . . . . Sir C. V. Raman 171

A Comparative Study of the Four Species of Paddy Stem-Borers Belonging to the Genera *Chilotraea* and *Chilo* in Asia (Lepidoptera: Pyralidae: Crambinae) . . . . . V. P. Rao and H. Nagaraja 175

Trace Element Nutrition of the Silkworm *Bombyx mori* L. III. Effect of Chelating Agents. . . . . S. Sridhara and J. V. Bhat 218

Nitrogen Uptake by the Rice Crop in the Experiments with Blue-Green Algae . . . . . M. N. Sahay 223

No. 5—May 1966

The New Physiology of Vision. Chapter XXXVIII. The Adaptation of Vision to Dim Light . . . . . Sir C. V. Raman 235

The New Physiology of Vision. Chapter XXXIX. Daltonian Colour Vision . . . . . Sir C. V. Raman 239

PAGE

The New Physiology of Vision. Chapter XL. The Colours of Iolite . . . . . Sir C. V. Raman 247

Biosystematics of Indian Plants. III. *Veronica anagallis* Complex . . . . . T. N. Khoshoo and C. L. Khushu 251

Determination of Mitotic Peak and Mitotic Time in *Draparnaldia plumosa* (Vauch.) AG. . . . . A. Abbas and M. B. E. Godward 258

Petrological Characteristics of Barakar Coal Seams Metamorphosed by Lamprophyre Sill in the Jharia Coalfield, Bihar . . . H. S. Pareek 261

Morphological Studies in *Plantago*—III. Nodal Anatomy . R. C. Misra 271

The New Physiology of Vision. Chapter XLI. Photography in Colour. . . . . Sir C. V. Raman 275

No. 6—June 1966

The New Physiology of Vision. Chapter XLII. Further Observations with the Neodymium Filter . . . . . Sir C. V. Raman 279

The New Physiology of Vision. Chapter XLIII. The Colours of Fluorspar . . . . . Sir C. V. Raman 283

Studies on the Sterility Mosaic Disease of Pigeon Pea. III. Nitrogen Metabolism of Infected Plants . . . . . P. Narayanaswamy and K. Ramakrishnan 288

Spatial and Temporal Aspects of Origin of Rice . . . . N. M. Nayar 297

Studies in the Floral Morphology and Anatomy of the Burmanniaceae. I. Vascular Anatomy of the Flower of *Burmannia pusilla* (Wall. ex Miers) Thw. . . . . R. M. Pai 304

On a New Species of *Sphaerosyllis* (Polychaeta) from the Beach Sands of Waltair Coast . . G. Chandrasekhara Rao and P. N. Ganapati 309

Morphological and Anatomical Studies in Helobiae. VII. Vascular Anatomy of the Flower of *Butomus umbellatus* Linn. . . . . V. Singh 313
